 - Techno India Group Public School
 - PCM with CS
 - 89.75%
- **Secondary Education [ICSE]** 2015-2016
 - St. Josephs High School
 - 89%

Projects

- **Farm Management System**
 - Developed a farm management system using Python with Flask and MySQL, designed to streamline agricultural operations. Features include crop planning, inventory management, and financial tracking. Enhanced security through user authentication and role-based access controls for improved operational efficiency.
- **Personal Portfolio Website**
 - Developed a dynamic personal portfolio website utilizing HTML, CSS, and JavaScript, showcasing professional accomplishments and project highlights. Employed responsive design principles for optimal viewing across devices.
- **E-Commerce Clone of Amazon.in**
 - Successfully replicated the UI/UX of Amazon.in using advanced HTML and CSS techniques. Implemented features such as product listings, search functionality, and responsive design, demonstrating proficiency in front-end development.
- **Pickle Company Website Blueprint**
 - Conceptualized and designed a comprehensive website blueprint for a college business proposal, showcasing essential elements of effective web presence. Emphasized user experience and intuitive navigation to drive engagement.
